

The Scariest Monsters

I wouldn't want to see a ghost
especially late at night.
I'm sure I could not handle it
as I'd get such a fright.

I think that vampires scare me too
Cause they're the living dead.
To think about these scary beasts
has made me wet the bed.

Werewolves too, are frightening
beneath the moon they prowl.
I know that I would jump in fear
to hear a werewolf howl.

All the monsters shown above
are really scary creatures.
But the scariest monsters of them all
would have to be my teachers.
